How big is solar power in Hungary?

Solar momentum is building in Hungary with almost 4 GW of generation capacity, more than 2.5 GW of which is from arrays bigger than 50 kW in scale, according to data published in December by the Hungarian Energetic and Public Utilities Regulatory Authority. Attila Keresztes, CEO of Astrasun Solar.

Are Hungarian solar projects eligible?

Even then, eligible projects must fulfill "exemption conditions" which lack transparency. In October, the Hungarian government introduced a provision for small, household-sized solar power plants that fundamentally transformed the Hungarian solar market.

How much solar energy does Hungary have in 2022?

The latest statistics from the International Renewable Energy Agency (IRENA) show that Hungary had installed 2.98 GW of solar by the end of 2020. New capacity additions only reached 20 MW in 2022. This content is protected by copyright and may not be reused.

What happened to Hungarian solar power plants?

In October, the Hungarian government introduced a provision for small, household-sized solar power plants that fundamentally transformed the Hungarian solar market. Since Oct. 31, the aforementioned, sub-50 kW, grid-connected household systems could no longer have a grid connection and could only be used for self-consumption.

Are grid constraints hampering solar deployment in Hungary?

PV deployment is gathering pace in the EU member state but grid capacity shortfalls and unpredictable shifts in government policy need to be addressed if the nation is to harness its full solar - and European energy security - potential. Grid constraints are hampering the roll-out of large scale solar in Hungary.

How to supercharge Hungarian solar?

To supercharge Hungarian solar, in addition to network investment and clearer regulation, the nation needs local manufacturing. My company, Astrasun Solar, has signed an agreement with Hungarian conglomerate Muszertechnika-Holding and its vehicle-chassis manufacturing operation IK Met&#225;l to produce solar mounting structures.
