

Ballard power systems Spain

Who is Ballard Power Systems?

Ballard Power Systems | 72.279 seguidores en LinkedIn. Here for life | Ballard Power Systems Inc., is a world leader in the development, manufacture, sale and servicing of hydrogen fuel cell power systems.

Why should you choose Ballard's fuel cell power products?

Benefitting from our vertical integration - ranging from Membrane Electrode Assembly (MEA), bipolar plates and stack design to complete system integration - Ballard's fuel cell power products deliver proven durability, reliability, and high power density with the lowest total cost of ownership. Explore our fuel cell products.

How many MW of fuel cell products does Ballard manufacture?

Ballard has designed and shipped over 400 MW of fuel cell products to date. Ballard was founded in 1979 by geophysicist Geoffrey Ballard, Keith Prater, and Paul Howard, under the name Ballard Research Inc. to conduct research and development on high-energy lithium batteries.

Who owns Ballard Motor Company?

AFCC's initial ownership split was Daimler AG (50.1%), Ford Motor Company (30.0%), and Ballard itself (19.9%). In 2018, Ballard signed a contract with Weichai Power for a strategic partnership. Weichai acquired for US\$163 million 19.9 percent of Ballard's shares.

What are the benefits of Ballard technology?

Ballard's technology offers a wide range of benefits within each of these markets, including lowering costs of energy use, longer operating lifetimes and positive environmental impacts. We are working to accelerate fuel cell technology adoption, committed to sustainable mobility and clean air for everyone. For more information go to

What time Will Ballard Power Systems hold a conference call?

VANCOUVER, CANADA - Ballard Power Systems (NASDAQ: BLDP; TSX: BLDP) will hold a conference call on Tuesday, November 5th, 2024 at 8:00 a.m.... Begin your journey towards sustainable energy solutions by scheduling a consultation with our knowledgeable fuel cell experts--let's discuss how we can drive your project forward together.

Ballard Power Systems Inc. engages in the design, development, manufacture, sale, and service of proton exchange membrane (PEM) fuel cell products. The company offers its products for power product comprising for bus, truck, rail, marine, stationary, and emerging market, such as material handling, off-road, and other applications. ...
