Who is Tiger new energy?

Tiger New Energy exhibited their latest innovation, Battery Swapping Station, during the launch event held at their office premises in Gulshan-1 in Dhaka. By introducing the Swapping Technology, Tiger New Energy announced themselves as the pioneer of Battery Swapping Networks for clean and affordable mobility in Bangladesh, said a press release.

Will Bangladesh's startup ecosystem continue to thrive?

"Amidst these changes, there is a growing belief that Bangladesh's startup ecosystem will continue to thrive," the consulting firm said. Local young firms have raised close to \$1 billion since 2013, it said. "In China or the US, it's very challenging to find an area with unfulfilled demand," said Mao.

Why did Tiger invest in battery swapping in Bangladesh?

The investment accelerates the deployment of Tiger's battery swapping network across Bangladesh, advancing its mission to promote eco-friendly mobility and deliver substantial socio-economic benefits.

What is the interim government doing in Bangladesh?

The interim government of Bangladesh, following the unrest in the summer that resulted in the ouster of long-serving premier Sheikh Hasina, is focusing on stabilising the economy and promoting fair market practices, according to a report from LightCastle Partners published in November.

Why did Mao & Zhu start a battery business in Bangladesh?

Because Mao's family owns a battery-making company in China, the pair decided to try the same business in Bangladesh: assemble more-sustainable lithium batteries with components imported from China and sell them to local customers. "It was a crazy idea," said Zhu, the chief operating officer.
