Using a solar battery can help users to reduce the amount of electricity they would normally buy during peak hours. The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates.

Most home equity loans are fixed-rate loans, meaning you'll have predictable monthly payments that won't change over the lifetime of your loan. HELOC. A home equity line of credit, or HELOC, is similar to a home equity loan in that it's a loan secured by your home and the amount you can borrow is based on your existing home equity.
