We have been active in Eswatini since 1977, where we market products and services to our business customers. We are actually the third-largest retailer in the country. Want to work in the energy industry? We represent more than 500 production, commercial and support professions in ...

Drawing on previous theories of electricity access, the paper argues that "access" to electricity requires consideration of the affordability and reliability of energy systems. Eswatini is an ...

To ensure the long-term scale-up of sustainable energy across Eswatini, it is essential to nurture a generation capable of leading the country's sustainable future. The renewable energy sector can offer a significant number of jobs for young people. This is a unique opportunity in a country where over 70 percent of the population is below the ...

The main challenges facing the energy sector include the reliance on power imports from South Africa; which is also facing its own power generation problems; lack of clarity in roles for procurement between the Eswatini Energy Regulatory Authority and Eswatini Electricity Company; lack of incentives to improve electricity service performance and system to track ...

MBABANE - Acting Minister of Natural Resources and Energy Jabulani Mabuza has today presided over the Eswatini National Water, Energy, and Food Nexus

The level of the framework for energy efficiency development in Eswatini is low. There is an Energy Efficiency policy adopted in 2019 with specific energy efficiency targets at the national level set for the power sector. The National Energy Efficiency Strategy and Action Plan, adopted in 2020, targets a reduction in annual electricity ...

The policy brief presents a road plan for the Kingdom's Just Energy Transition. It seeks to link growth and development with Eswatini's Nationally Determined Contributions (NDC) pledge to generate 50% of its energy from renewable sources by 2030, as well as COP28's goal of transitioning from fossil fuels to renewable energy by 2048.

The changes are driven by Eswatini's desire to improve energy security, access to reliable, adequate, and affordable electricity, and the mitigation of potential detrimental impacts on the environment because of the growing energy demand. The Eswatini Electricity Company (EEC), a state-owned power utility, owns and operates four hydro power ...
