

Belize agile solar

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Why has Belize invested in energy?

Belize has invested in energy for the purpose of strengthening and stabilizing its energy sector over the last 20 years. The country has made investments in hydropower, biomass, solar, and liquified petroleum gas (LPG) to ensure energy security.

Does Belize use solar power?

Belize uses solar power on a smaller scale, with the Government having installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid. The Government of Belize, along with Belize Electricity Limited (BEL), intends to launch a pilot project introducing electric vehicles.

Why is Belize not connected to the National Grid?

Significant portions of Belize, including tourist hotspots such as the cayes and eco-tourism lodges in the rainforest, are not connected to the national grid. Belize remains a net-importer of electricity from Mexico, making energy imports expensive and unpredictable.

Is a grid-tie Solar System a viable option?

If your monthly electricity bill exceeds BZD 500 and your energy consumption is mostly during the day, then adding a grid-tie solar system with or without battery back-up is more economically viable than going completely solar off-grid. Will my grid-tie solar system stay on during a grid outage?

Who installs the Orange Gallery Solar System?

We (The Orange Gallery) were the first official grid-tied system in Belize. Our system was installed by SESB and we have been powering our operations with free energy from the Sun for a few years now. We love it and are happy to recommend SESB! Which solar system is right for me?

Belize agile solar

I have been on Agile without solar or battery storage since November 2022. I am saving around 30% vs. what my charges would have been on the standard flexible tariff, and around 20% vs. Octopus Go. I was on Octopus Go for a few months prior to that, but without an EV (this was back when they didn't particularly care whether you had an EV or not)
