

Can Syria match all-purpose energy demand with wind-water-solar (WWS)?

This infographic summarizes results from simulations that demonstrate the ability of Syria to match all-purpose energy demand with wind-water-solar (WWS) electricity and heat supply, storage, and demand response continuously every 30 seconds for three years (2050-2052).

Can the United States rebuild Syria's economy?

Even so, there is widespread agreement that the single most important step in rebuilding Syria's economy can be taken only by the United States: Lift the punishing layers of sanctions that have effectively cut off Syria from international commerce and investment.

What is Syria's most profitable export?

More recently, Syria's most profitable export was captagon, an illegal, addictive amphetamine controlled by a cartel of politically connected elites. "The whole economic system in Syria is not functioning," said Samir Aita, a Syrian economist and the president of the Circle of Arab Economists.

Which country has the most influence in Syria?

Turkey, which shares a border with Syria and hosts more than three million refugees, is best placed and has the most influence. President Recep Tayyip Erdogan, who supported the rebels and funded a group allied with Mr. al-Shara, is looking to extend his influence there.
