So, in Brunei right now, the real saving for solar is just in the installation/cabling cost. This is why our company is mainly focusing on outdoor solar powered lightings and small solar power systems. Cabling and trenching works can cost up to thousands of dollars, hence for these small systems and outdoor lightings, solar is the cheaper and ...

It's always a risk, but especially these years. For anyone interested, read the study by Scott McIntosh on solar cycles, his way of predicting solar cycles is far more accurate and logical than the ways NASA has been using. They're basically guessing. According to Scott, the solar cycles are tied to the sun's magnetic pole reversals.

2. Solar Energy Resource In Brunei Brunei has high potential of solar energy. The solar radiation in Brunei Darussalam is shown in Figure 1. The solar radiation is in the range between 4.7 to 5.8 kWh/m<sup>2</sup> per day, which is considered as high range level globally. The irradiation is obtained using different sources
