Providenciales, Turks and Caicos Islands (Thursday, June 8, 2023) - FortisTCI will invest \$8 million to install the country's first solar plus battery microgrids to power 30% of ...

Locations. Grace Bay is an ideal sailing location and is really the only place Hobie Cats are normally used in the country, as most of the main resorts are located on this section of the coastline. Long Bay on Providenciales also offers great conditions, but there are only a few privately owned Hobie Cats in the area.. Resorts and rental businesses usually don't want the ...

The Queen Conch in Turks and Caicos Cuisine and Culture Blowing a queen conch horn. Conch is an important symbol of the Turks and Caicos, being one of three symbols on the Turks and Caicos flag (the other two being a spiny lobster and a Turk's head cacti). The conch shell has been used for decoration and as tools as far back as the first known ...

To propel the TCI into an era of clean energy, FortisTCI will invest \$8m to install the country's first solar plus battery microgrids to power 30% of the electricity supply on North and Middle Caicos and 91% of the electricity supply on Salt Cay in 2024.

Equity Champions. Energy equity is a catalyst for climate justice and ensuring all people have access to reliable, affordable energy. It is sharing both the benefits and burdens from the production and consumption of energy services; including underrepresented communities in decision-making processes; and remediating the negative social, economic, and health ...
