Will edfi electrifi invest in Lesotho mini-grid portfolio SPV?

Brussels,6 January 2022: EDFI ElectriFI,REPP,and 1PWR have reached financial close on Africa's second largest project-financed mini-grid transaction. The equity-and-debt investment into the project vehicle,Sotho Minigrd Portfolio SPV,will fund the construction of a portfolio of 11 mini-grids in Lesotho with a total capacity of 1.8MW.

What is Repp doing with Lesotho's first solar-battery mini-grid?

In 2019,REPP extended a LSL 7m loan to 1PWR to finance Lesotho's first solar-battery mini-grid at the village of Ha Makebe. This project became operational in 2021 and now services 215 households and businesses in the community.

Does Lesotho have a low electrification rate?

Lesotho,a landlocked nation surrounded by South Africa,has one of the lowest electrification rates on the continent,with about 62% of the population lacking access to electricity and with a rural electrification rate estimated at below 20%.

A Smart Grid is capable of addressing these challenges. There are many working definitions of a Smart Grid and many examples of initiatives under way that could be considered Smart Grid projects. However, for the purposes of this report, a Smart Grid is defined as a broad range of solutions that optimize the energy value chain.

The smart grid is the state-of-the-art technology for electrical system that can sensibly execute the operations to all interconnected elements - from generator to consumers. Smart grid simply converts the conventional power grid towards the modern grid in order to regulate sustainable, economic and reliable electricity (Massoud & Wollenberg, 2005 and Gellings, 2009).

Concurrent Technologies Corporation (CTC) offers an integrated team of diverse disciplines proficient at developing a customized power and energy plan to meet our clients' needs. Our core focus spans energy efficiency, energy/utility grid security, energy sustainability, and strategies, assessments and audits. Our registered Energy Professionals are ready to provide relevant ...

CTC EcoLogic Pro/Family är ett unikt styrsystem som automatiskt övervakar och styr CTC's värmevärmpumpar, spetsvärme, bufferttankar, sol, pool, frikyla, etc. CTC EcoLogic Pro kan styra och övervaka upp till tio värmevärmpumpar. För att kunna passa de flesta pannor och vattenburna radiatorsystem så finns det sex olika grund-

With the new LSL 40 million investment, the company will expand the scope of the project and complete a network of over 1,000 km, overcoming the challenges posed by ...

The CTC EcoLogic M is a slightly simpler variant able to control up to two heat pumps in up to two heating

circuits, which is enough for most properties. The CTC EcoLogic L and M has a built-in power monitor, optional external ...

SmartGridCity is a technology pilot that explores smart-grid tools in a real-world setting. As part of SmartGridCity, Xcel Energy has successfully installed approximately 23,000 automated smart electric meters in Boulder, Colorado, United States as part of a new era in electricity grid management that will be able to meet the needs and maximize the benefits of electric ...
