DHYBRID ist der globale Lösungsanbieter für erneuerbare Energien und Batteriespeichersysteme. Die DHYBRID Universal Power Platform ermöglicht die intelligente Kombination und Steuerung von Batteriespeichern und erneuerbaren Energien in jeder hybriden Anwendung und gestaltet so die Zukunft der Energiesysteme weltweit.

This paper proposes a simple and efficient procedure for optimal sizing of PHS-integrated hybrid PV/Wind power system for providing sustainable supply of electricity to an ...

In Turkey's energy scene, hybrid power plants are making waves. These facilities merge a main energy form with solar power, proving Turkey's dynamic policies and willingness to keep up with new tech. A crucial ...

Whenever possible, Dorner uses the electricity directly on his farm. He commissioned DHYBRID to design and install a battery storage system to provide a capacity of 525 kWh. DHYBRID's Universal Power Platform (UPP) ensures that the solar power is only fed into the public grid when the batteries have enough power for the night.

Plus the diesel systems have high emissions in the form of CO₂, pollutants and noise. Photovoltaic installations and battery-based storage units significantly reduce the diesel generators' run times. The central energy management system, the Universal Power Platform (UPP), from DHYBRID is what sets its microgrids apart.

Renewable energy-based hybrid power systems (HPS), proposed based on demand in the transition to clean energy-indexed societies, are high-potential investments. However, cost ...

energy sources into one economic and sustainable hybrid power supply. The modular approach of the DHYBRID UPP ensures economic viability of hybrid projects at any stage of the transition from conventional into 100% renewable energy generation.

Commissioned was the whole project by DHYBRID Power Systems. "We are extremely proud to follow the green route and inaugurate the largest rooftop PV plant in Africa in an effort to reduce energy cost and become partly self-sufficient. The 1.1 MW plant will cover up to 34% of the total NBL consumption", says laudatory Hendrik van der ...
