Inspired by our principles, values and successful history, we founded Domenica Solar, a company that specializes in solar energy. Our vision is to enable as many people as possible to generate their own energy, minimizing their electricity spending and reducing their carbon footprint.

On Monday, those who are interested in celestial events will witness a partial solar eclipse in Dominica and across the Caribbean. A solar eclipse takes place when the moon passes between Earth and the sun, blocking sections of the sun either totally or partially. If the sun is totally blocked, it is known as a total solar eclipse but if parts ...

The Government of Dominica has been convinced for decades that geothermal could be transformative for livelihoods, slashing the cost of electricity in a country which is currently reliant primarily on expensive imported diesel as a power source and supplemented by hydropower and a small amount of wind and solar.

Un sistema fotovoltaico dom&#233;stico es un conjunto de paneles solares que convierten la radiaci&#243;n solar en electricidad. Puedes elegir un sistema aislado, que no est&#225; conectado a la red el&#233;ctrica, sino a bater&#237;as que almacenan el excedente de energ&#237;a. As&#237; podr&#225;s tener electricidad incluso cuando no haya sol o cuando haya un fallo de la red.

The Island of Dominica came one step closer toward its goal of becoming a fully climate-resilient nation with two new solar microgrids. The Dominica Ministry of Education, with support from the Clara Lionel Foundation (CLF) and RMI, founded as Rocky Mountain Institute, has formally announced the addition of solar power and battery energy ...

For the construction, which has had an investment of 93M USD, a total of 147,870 solar panels were used. Results The project helps Dominican Republic to reach its goal until 2025, the year in which they expect 25% of the electricity consumed by the country to come from renewable energies, and has generated more than 500 direct jobs in the region.

Dominica already has substantial geothermal, solar and wind power capacities making the island an ideal location for energy generation from these resources. Those looking to invest in renewable energy will find a welcoming and ...
