What is Drax Energy?

Drax Energy Limited supplies gas and electricity to businesses across the United Kingdom. It purchases electricity from wind, solar, hydro, and anaerobic digestion generators, and provides support to develop energy-generating sites. It is headquartered in Northampton, United Kingdom.

Where is my Drax Energy located?

Check our handy user guide to help you explore all My Drax Energy's features. Drax Energy Solutions Limited: registered in England and Wales, number 05893966. Registered office: Drax Power Station, Selby, North Yorkshire YO8 8PH

Is Drax a carbon negative company?

Drax Group's ambition is to become a carbon negative business by 2030, through innovative greenhouse gas removal technology. We believe investing in our people goes hand-in-hand with enabling the green energy transformation and positive future growth. What is bioenergy with carbon capture and storage (BECCS)?

Is Drax scrapping Europe's largest gas plant after climate protests?

Energy Live News. 30 July 2019. Retrieved 26 January 2021. ^ Ambrose, Jillian (25 February 2021). "Drax scraps plan for Europe's largest gas plant after climate protests". The Guardian. ^ "BBC Panorama: The Green Energy Scandal Exposed". BBC Panorama. 3 October 2022. Retrieved 4 October 2022.

What happened to Drax Power Station?

One significant change was the emergence of vertically integrated companies, combining generation, distribution and supply interests. In certain cases, it became necessary for generation assets to be divested, and so in 1999 Drax Power Station was acquired by the US-based AES Corporation for \$1.87 billion (US\$3 billion).

How many generating companies did Drax Power Station have?

Three generating companies and 12 regional electricity companies were created. As a result of privatisation, Drax Power Station came under the ownership of National Power, one of the newly formed generating companies. Over the years that followed privatisation, the map of the industry changed dramatically.

Drax Group plc, trading as Drax, is a power generation business. The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business. The company is listed on the London Stock Exchange and is a constituent of the FTSE 250 Index
