Who is QoS energy?

After almost two years of e-interactions, the team at QOS Energy is thrilled to have been a part of the..... Founded in 2010, QOS Energy is an innovative independent software vendors specializing in data intelligence and cloud solutions for renewable asset owners and operators.

What's new at QoS energy?

QOS Energy is now Univers. Click here to check out the new website! Harness the power of your data through cloud-based analytics and data intelligence solutions for renewable energies. Learn how SOLV, a leading O&M service provider in North America, uses Quantum $\#174$; to optimize operations and maintenance processes on their 1 GW+ solar portfolio.

How many countries does QoS energy operate in?

QOS Energy operates in 23 countries, with offices in Europe, North America, and India. Today, QOS Energy maximizes returns for over 8000 facilities, entailing 12 GW of renewable power. QOS Energy is trusted by leading renewable asset operators worldwide.

Why should you use QoS energy?

The solution provided by QOS Energy can integrate any type of data, which is a powerful and truly unique capability in the market. We can now track asset performance with greater efficiency, and, in turn, provide optimum value to our clients." Adam Snyder, Product Manager from SOLV.

What is QoS energy's management platform?

"QOS Energy's management platform is a smart and flexible solution that offers the data acquisition, analytics, ticketing system, and reporting features required to operate our plants in a cost-efficient manner." Melanie von Borstel, Co-Founder & Operations Director at ensibo.

How has Ecuador's energy consumption changed over the years?

Ecuador's energy production increased by a compounded growth rate of 0.5% per year from 2011 to 2021, and renewables accounted for most of the increase. The country's energy consumption also increased by a compounded growth rate of 0.5% per year over the same period, down from 4.9% per year the decade prior.

Best Wishes for 2019. 17 December 2018. QOS Energy and its Client Community support a Renewable Electrification Project on an African school. For 2019, QOS Energy and its Client Community are participating in the financing and construction of a solar PV installation on a school building in Burkina Faso in Africa, in partnership with the endowment fund Synergie ...

Ecuador derives the vast majority of its energy supply from oil, particularly in the transport and industrial sectors. Hydro power is also a key energy source, accounting for more than 62% of ...

Drive-up the performance of wind turbines and storage facilities with Qantum[®], a cloud-based wind monitoring platform powered by QOS Energy. Maximize renewable energy production and streamline Operations and Maintenance of ...

Ecuador's energy use (Table 1). Ecuador's energy production increased by a compounded growth rate of 0.5% per year from 2011 to 2021, and renewables accounted for ...

QOS Energy, a leading renewable O& M analytics software provider, has completed the delivery of an innovative Energy Management System (EMS) to SunHydrO, a combined renewable energy and storage R& D project led by French aggregator Sun'R Smart Energy. The SunHydrO project aims to foster the grid integration of variable renewable energy sources ...

1 ¹; Ecuador can also consider alternative energy sources. As of 2021, 79.1 percent of all energy generation in Ecuador was coming from hydropower. Wind power contributed only 0.2 ...

explains Jean-Yves Bellet, Chief Product Officer at QOS Energy. Offering innovative features supported by Qantum [®]; 's powerful computing abilities, our new reporting engine will help renewable asset managers gain valuable time, improve decision-making processes and ultimately help increase power production and reduce costs .

"QOS Energy provides turnkey O& M analytics services to unleash the value of data from thousands of renewable energy plants across the world. With its target to ramp up solar power generation to 100 GW by 2022, India is poised to become one of the largest PV market in the world. Our customers' business needs reflect this trend.

"QOS Energy's management platform is a smart and flexible solution that offers the data acquisition, analytics, ticketing system, and reporting features require... Read more customers stories Adam Snyder, Product Manager from SOLV "We operate and maintain on behalf of our clients a broad and diverse PV portfolio that requires industry ...

SOLV Deploys QOS Energy's O& M Management Platform to Improve Performance across 1 GW Solar Portfolio. SOLV, the leading independent solar O& M service provider in America and a division of EPC contractor Swinerton Renewable Energy, has begun deployment of QOS Energy's Qantum [®]; software to monitor and support the operations and maintenance of more than 1 ...

France's First Tidal Energy Plant Gets Smarter with QOS Energy's Data Intelligence Platform. Sabella, a pioneering tidal and ocean stream turbine developer, has partnered with QOS Energy to improve the performance ...

France's First Tidal Energy Plant Gets Smarter with QOS Energy's Data Intelligence Platform. Sabella, a

Ecuador qos energy

pioneering tidal and ocean stream turbine developer, has partnered with QOS Energy to improve the performance monitoring of its ground-breaking Ushant tidal energy project. The first 1MW tidal turbine of the plant, immersed 55 metres under water off the west coast of ...

Coronal Energy Rolls Out QOS Energy's O& M Monitoring Platform Across 355 MW Solar Portfolio. Thanks to the system's flexibility, Coronal was able to migrate data from five different monitoring platform into a single one in just two months.. Coronal Energy, a leading North American IPP specialized in solar PV and energy storage projects, has selected QOS Energy, ...

Fundada en 2010, QOS Energy es un innovador proveedor de software independiente especializado en inteligencia de datos y soluciones en la nube, para propietarios y operadores de activos renovables. QOS Energy opera en ...

DHYBRID Partners with QOS Energy to Monitor PV Hybrid and Energy Storage Off-Grid Plants. DHYBRID, the leading German solution provider for PV hybrid, energy storage and smart-grid projects, has announced its partnership with QOS Energy, the data intelligence cloud specialist, to monitor PV hybrid and energy storage plants. DHYBRID will benefit from the versatility of QOS ...

Europe can achieve climate neutrality before 2050. SPE and LUT University have modelled three scenarios to make Europe climate neutral before 2050. A 100% Renewable Energy EU scenario triggers the sharpest decline in GHG emissions, causing them to ...

Join Kevin Vical from QOS Energy along with other panelists at the Intersolar South America Digital Xperience conference and get insights on the potential of the Latin American solar market.

The year it was: Rewind 2021. 28 December 2021. Amidst working from home, wearing masks, and overall adapting to a brand new mode of collaborating, the team at QOS Energy did not fail to roll out a year loaded with exciting product deliveries, meet-ups with clients, and even squeeze in an outdoor adventure!

Coronal Energy Rolls Out QOS Energy's O& M Monitoring Platform Across 353 MW Solar Portfolio; QOS Energy India Partners with Webdyn to Offer a Turnkey Monitoring Solution for the Indian Solar Rooftop Market; Renewable Performance Analytics in your Pocket with the new Mobile App by QOS Energy; QOS Energy Participates at the Renewable Energies ...

Highlights from IRENA's RE Capacity 2022 report. 02 June 2022. 2021 was a strong year for the energy transition - the world added almost 257 Gigawatts (GW) of renewables, increasing the stock of renewable power by 9.1 percent and contributing to an unprecedented 81 percent of global power additions.

QOS Energy Powers Quantum; Founded in 2010, QOS Energy is a renewable energy asset performance management and monitoring software vendor for IPPs, renewable energy developers, O& M service providers, asset owners, and EPCs. We offer a unique blend of expertise in industrial IoT, data exchange, data analytics,
