

<div class="df_qntext">What is ICESC 2025?

The International Conference on Electrochemistry, Energy Storage and Composites 2025 (ICESC 2025) is scheduled to be held in Zhuhai, China.

<div class="df_qntext">What happened at the 1st National Symposium on electrochemical conversion?

The 1st National Symposium on Electrochemical Conversion took place on May 21st in the Netherlands. This event was a great success, below you find an overview and highlights of the day's activities. The symposium focused on exploring the potential of electrochemistry to drive the development of sustainable chemicals and fuels.

<div class="df_qntext">When is ECNs 2025?

We're excited to announce the second edition of the Electrochemical Symposium (ECNS) on May 12, 2025. After the success of last year's event, we're back and ready to dive even deeper into the future of electrochemistry! Exploring the Future of Sustainable Chemicals and Fuels through Electrochemistry

<div class="df_qntext">Can electrochemistry drive the development of sustainable chemicals and fuels?

The symposium focused on exploring the potential of electrochemistry to drive the development of sustainable chemicals and fuels. Experts from across the field gathered to discuss the latest advancements and future prospects in this important area of research and innovation.

<div class="df_qntext">How to submit a research paper for EI 2024 Conference?

Good quality papers will be selected by the organizing committee and Prof. Soteris Kalogirou, the editor in chief. After it, the authors will be invited to extend their papers/abstracts and submit them to ei_2024conference@126.com. The normal size of research papers is 4,000-6,000 words excluding abstract and references.

The conference will focus on the principles of electrochemistry, energy storage technology and composite materials, to promote the development of the field of electrochemistry and energy storage ...

If you have any question or need any assistance regarding the conference, please feel free to contact our conference specialists:

The 7th Int'l Conference on Electrochemistry and Energy Storage (CEES 2024) will be held during December 06-08, 2024 in Sanya, China. This Conference will cover issues on ...
