

Energy resources international co ltd Tajikistan

Who is Energy Resources International?

Energy Resources International Co, Ltd. was established in Taiwan in 1999 and currently has several technologies and applied for invention patents.

Why should Tajikistan invest in hydropower?

Tajikistan's geographic proximity to some of the world's fastest-growing energy markets means that investing in developing its hydropower potential can contribute to regional energy security and the clean energy transition, in addition to addressing Tajikistan's high vulnerability to climate change and natural disasters.

What is the energy sector of Tajikistan?

The energy sector of Tajikistan includes several entities. The electric power is the responsibility of the State-owned joint stock company Barqi Tojik, which entirely controls production, transportation and distribution of electricity in Tajikistan.

What is IEA's energy sector review of Tajikistan?

This International Energy Agency (IEA) energy sector review of Tajikistan was conducted under the auspices of the EU4Energy programme, which is being implemented by the IEA and the European Union, along with the Energy Community Secretariat and the Energy Charter Secretariat.

Why is Energy Independence important in Tajikistan?

The need for energy independence is a top priority in Tajikistan, with currently over 90% of oil and gas being imported from neighboring countries within Central Asia. The Tajik government has put a priority on the development of domestic resources. There are two oil and gas basins in Tajikistan.

Who is responsible for electricity production in Tajikistan?

The electric power is the responsibility of the State-owned joint stock company Barqi Tojik, which entirely controls production, transportation and distribution of electricity in Tajikistan. Oil and gas production, and development of oil and gas deposits are the responsibility of the State Committee for Oil and Gas.
