Who owns Eswatini electricity?

At present, the state-owned Eswatini Electricity Company (EEC) holds a majority share in Eswatini's energy market. Tasked with the generation, transmission, and distribution of electricity within the country, the EEC operates three hydropower plants and one diesel power plant, with a combined capacity of approximately 70 megawatts (MW).

Will Eswatini achieve its energy goals by 2034?

Through sustained investment in solar, wind, and biomass projects, Eswatini stands poised to emerge as a regional pioneer in renewable energy and fulfil its ambitious energy goals by 2034.

Is Eswatini a potential site for wind power development?

Numerous potential sites for wind power development have been pinpointed, offering wind speeds ranging from 6 to 8 metres per second. Additionally, Eswatini's substantial biomass resources, particularly sugar cane residues, present opportunities for electricity generation through cogeneration.

What makes Eswatini an energy master plan?

A crucial element of the Energy Master Plan is the progression of solar power projects. Blessed with abundant solar resources and an average solar irradiation of roughly 5.5 kWh/m<sup>2</sup>/day, Eswatini presents an optimal site for solar power generation.

Who is Harbour Energy plc?
