Future ready for your smart homes and buildings; 20+ years of experience

While EU solar job numbers were soaring in the EU until a few months ago - employing 826,000 by the end of 2023, and 27% more than a year before - this situation has changed dramatically. For 2024, we expect very slow solar installation capacity growth by only around 5% to about 64 GW new solar in the EU. As consequence, the solar job ...

5 ???· The amount of solar energy installed in the EU had jumped by more than 40% year-on-year in both 2021 and 2022, and by more than 50% in 2023, industry association SolarPower Europe said.
