Who is Eza - drive your energy?

DRIVE YOUR ENERGY ! LOOKING FOR AN EZA DISTRIBUTOR ? EZA - Drive your Energie - As a leading supplier of on-board energy systems, we place our expertise at the service of our customers who wish to integrate our solutions into their vehicle fittings.

What are Eza 80ah & 130ah batteries used for?

The EZA 80Ah and 130Ah batteries are meant for on-board mobile use. They sources of energy. inverter with a maximum output of 1500W. engine. power 12V DC or 230V AC electrical equipment using an inverter. provided specific cables. unit. using the supplied connection cables. on a flat and stable surface.

How do I connect a battery to the EZA Power Pack?

battery requires a cable over 5 metres long, you must use a minimum 252 cable with an Anderson socket SB120R (CABLEZA25) and an ADAPTKIT to connect to the EZA Power Pack (included with the CABLEZA25). unit. This socket is equipped with a special, high efficiency lithium battery regulator which can accept a maximum power of 400W.

How to charge Eza battery?

EZA batteries will appear. Press the name of your EZA power pack. You can find this pack. A window will appear. Press 'connect'. access code. This access code is pack. The code can be found on the the EZA power pack. It will start with A. 2. Use EZA power pack. Fully charge the EZA application. This first full charge must reach a voltage of 14.2V.

What cable do I need to connect my Eza battery?

attention to the polarity. battery requires a cable over 5 metres long, you must use a minimum 252 cable with an Anderson socket SB120R (CABLEZA25) and an ADAPTKIT to connect to the EZA Power Pack (included with the CABLEZA25).

What if the EZA Power Pack is not included?

the EZA power pack for conventional lead-acid batteries. For example, if you sell the vehicle and want to keep the EZA or if the EZA should develop a fault.- NOT INCLUDED WARNING! Security notices: not following these notices could cause injuries or damage the material or the installation.

Batterie EZA-E : La technologie Lithium à portée de mainDécouvrez la batterie EZA-E de la marque EZA, une révolution pour tous ceux qui cherchent à moderniser leur installation électrique en adoptant la technologie Lithium LifePo4. En seulement 5 minutes, passez d'une ancienne batterie plomb à une batterie lithium de pointe, sans nécessiter de modifications techniques ...
