

Faam battery Madagascar

What is FAAM - battery management system (BMS)?

Since 2004 FAAM develops customized solutions with quality standards of excellence, made up of lithium batteries complete with our innovative management system (BMS - Battery Management System). With automotive, traction and stationary applications.

What is the FAAM service?

The FAAM Service represent a point of reference in the field of assistance on all energy storage systems with lead and lithium technology, for industrial applications (traction and stationary) and automotive one. Ask a question to this supplier?

What is FAAM lithium technology?

With automotive, traction and stationary applications. FAAM Lithium Technology ... the ideal solution for those looking for performance and efficiency without compromise. Periodic and professional maintenance is of utmost importance for our products as it avoids compromising efficiency.

In the near future, southern Italy will be a key player in the production of accumulators for electric vehicles, a cutting-edge sector in which Italy is at the forefront in Europe. Two Italian Giga...

FAAM is building a Gigafactory in Teverola for the production of cells, modules, and battery packs for Electric Vehicle, Energy Storage, Industrial, and Special applications. ... We are looking for a Battery Designer with ...

FAAM is building a Gigafactory in Teverola for the production of cells, modules, and battery packs for Electric Vehicle, Energy Storage, Industrial, and Special applications. In joining us you will take part in a very strategic project for the European lithium battery value chain.

As part of Seri Industrial group, FAAM is proud to contribute to the project with... Read More. vamtam-theme-circle-post Category news. Eni and SERI Industrial: an agreement for the industrial development of the battery ...

Depuis 2000, FAAM est active dans l'application de la technologie Fuel Cell, tant dans le domaine des transports que pour les usages stationnaires, atteignant des objectifs importants dans la réalisation de véhicules à hydrogène, tels que le Smile Fuel Cell. ... Battery Management System) pour les applications automobiles, de traction et ...

The SAFE range, designed for vehicles of all categories, is the concrete answer to the ever-increasing demand for energy and the need for a high power accumulator for high starting currents, combined with safety and extreme reliability.

Faam battery Madagascar

From the active material (Lithium - Iron - Phosphate), through the production of the cell using a water-based process, to the battery system including our BMS (battery ...

FAAM está controlada al 100% por Seri Industrial. Seri Industrial es una empresa que cotiza en la bolsa EXM de la Borsa Italiana y que apoya la transición energética y ecológica. ... (battery management system). Leer más. Fabricamos baterías con ...

Continuous research in the field of energy efficiency, which has led to the development of the Energy Saving Battery system, which saves up to 27% of the energy needed to recharge traction batteries; ... Mail. info@faam . FIB SPA Strada Provinciale per Gioia - Centro Az. Quercete 81016 San Potito Sannitico (CE) PI 03866680618 Cap. Soc. EUR8. ...

Motorcycles Battery Motorcycles. La gamma è composta da un ampio assortimento, volto a soddisfare le molteplici esigenze applicative, che vanno dallo scooter alle moto di grossa cilindrata, passando per trattorini tosaerba, ...

VRLA AGM FLL VRLA GEL-FLG batteries are designed for applications on: Energy storage; Energy system; UPS; And much more... Key features: Pb/Ca/Sn thick flange plate; Separators with low e...

The expertise of the Faam brand in the field of battery production, combined with the leadership in the plastics sector, allow the entire group to make the concept of Circular Economy not a goal, but a real business model. The Faam brand owns four plants, three of them on Italian soil, which are:

FAAM - Energy Saving Battery | 7,762 followers on LinkedIn. On the path to Energetic Transition | FAAM, controlled by Seri Industrial Spa, is specialized in the production and recycling of lead-acid and lithium batteries for traction, industrial, storage and military applications. Thanks to the fully integrated supply chain, including a Battery Management System, FAAM brings to market ...
