Faam TOP gives you at least 25% longer life compared to a standard 1500 cycle battery, thanks to its design life and lower operating temperatures. On top of this there is a potential 12% energy saving. Through FAAM we can also offer stationary batteries; from long term cyclical use to emergency power supply.

The FAAM brand Energy Storage solution, thanks to the use of high quality materials, the structure and composition of the components, and the high level of engineering, provides excellent performance in terms of energy storage and release in every situation, condition and moment in which it is required.
