

Fiamm industrial batteries Luxembourg

Who makes Fiamm batteries?

A multinational company with decades of experience in the manufacture and distribution of batteries, Fiamm Energy Technology is a recognised brand leader of VRLA (valve regulated lead acid) batteries. Secure Power has a long standing direct relationship with Fiamm and has rapid access to an extensive range of Fiamm batteries.

Who is Fiamm energy technology?

FIAMM Energy Technology is a multinational company engaged in the production and distribution of batteries and accumulators for motor vehicles and for industrial use born following the separation from FIAMM Group of the business of automotive batteries and industrial batteries with lead-acid technology.

Who is Fiamm?

Founded in 1942, FIAMM is an internationally recognised leader in the development and supply of a wide range of industrial batteries and energy storage systems. FIAMM design and manufacture backup power solutions to guarantee the continuity of the energy supply to the applications when the main power is cut off.

Does secure power sell Fiamm batteries?

Secure Power has a long standing direct relationship with Fiamm and has rapid access to an extensive range of Fiamm batteries. Our commitment to understanding UPS battery technologies coupled with the advanced battery specification tools developed by Fiamm, the Secure Power team is able to provide expert battery sizing guidance.

What is a Fiamm FLB battery?

FIAMM FLB range of valve regulated batteries has been designed to deliver the highest performances whilst combining excellent reliability and float-life. FLB high energy density allows compact battery layout and footprints, this reducing the installation space. FLB blocs can be installed in cabinets or racks.

What is Fiamm SLA?

FIAMM SLA range of valve regulated batteries has been designed for applications demanding the highest level of reliability and security. It has been designed for the most critical applications, offering unsurpassed proven reliability, compliant with the highest recognized International Standards.
