What is the energy storage project in Kosovo?

On the other hand, Neshati noted that "The Energy Storage Project is the largest energy project in Kosovo in decades and the most significant Battery Energy Storage System (BESS) project in Europe (MW per capita).".

What role will Bess play in achieving Kosovo's Energy ambitions?

As Kosovo transitions towards a more sustainable energy future, BESS will undoubtedly play a vital role in achieving its energy ambitions.

Will Kosovo build a battery energy storage system?

The government of Kosovo will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the energy crisis.

Where does Kosovo get its power from?

The Kosovo A Power Station in Obilic. The country gets the bulk of its power from coal. Image: Flickr. The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

How will MCA Kosovo & MCC start a green transition?

The project will introduce a state-of-the-art battery storage system and entails the largest energy investment in Kosovo during the last few decades. Through the BESS project, MCA Kosovo & MCC will kick-start Kosovo's green transition by laying the foundation through one of the largest energy storage projects in Europe.

Will Kosovo become a leader in the energy sector?

By implementing the largest BESS installation in the region, Kosovo will become a leader in the field, surpassing other countries in the area and beyond. The project, co-funded by the Government of Kosovo and MCC, aims to build a 340 MWh BESS installation by 2027. The project is expected to bring significant benefits to the energy sector in Kosovo.
