

Guyana triathlon intelligent batteries

What is triathlon ® lithium-ion battery?

TRIATHLON ® Lithium-Ion batteries are made up of Lithium-Ion cells that are assembled into modules which provide the required voltages and Ah capacities. We offer complete battery systems in all standard battery voltages. The battery system meets the highest safety requirements.

Who makes triathlon batteries?

For several years now, Triathlon Batterien GmbH has been producing battery systems based on the pioneering Lithium technology. TRIATHLON ® Lithium-Ion Battery Systems are developed and designed for safe and reliable use in electric industrial trucks.

What is triathlon battery guard 4.0 system?

icon Battery Guard 4.0 System: Triathlon Batteries is an ultramodern production facility for traction/motive power batteries. Triathlon primarily produces Lead-Acid batteries and Lithium-Ion battery systems for use in electric forklifts and pallet jacks, electric industrial trucks, mobile lifting platforms and other vehicles.

What makes triathlon a good battery system?

Active - the Triathlon battery system has active protection components which prevent application errors virtually 100% of the time. TriCOM more - allows optional charging of up to eight batteries with only one charger. TriCOM SR-Switching Technology - High system efficiency of up to 97%.

What are triathlon ® battery specifications?

Lithium-ion battery specifications: Flexible - the TRIATHLON ® battery system can be used and charged anywhere and at any time. Fast Charge - full charging is possible within one hour. Opportunity Charge - opportunity charging is possible and encouraged at any state of charge and will not reduce battery life. Zero Emission - no gassing.

What is a triathlon tubular battery?

TRIATHLON tubular batteries are designed specifically for all power heavy duty applications and multi-shift operations. For light to medium applications we provide maintenance-free (valve-regulated) gel technology batteries that stand out for their excellent cycle life and ease of use.

This complete battery system consists of lithium-ion battery cells and modules, intelligent monitoring and control systems, extensive safety components, and a high-frequency opportunity/fast charger that communicates with the battery via CAN bus protocol. The battery system has active protection components which monitor the entire system and virtually ...

Guyana triathlon intelligent batteries

Batterien GmbH. Am Standort ist neben der Produktion auch wesentliches Know-how im Bereich der Entwicklung von Blei-Säure Batterien und Lithium-Ionen Batteriesystemen gebündelt.

Battery weights may vary +/- 5%. Counterweights can be added to the battery if the service weight of the battery is less than the minimum weight required. This information is subject to change based on notice from suppliers or Triathlon needs.

TRIATHLON Lithium-Ion Battery Systems are developed and designed for safe and reliable use in electric industrial trucks. The high-performance Lithium-Ion cells used offer maximum safety ...

Triathlon Holding has decades of experience in the development and assembly of lead-acid and lithium-ion batteries for the intralogistics and energy storage markets, offering innovative products ...

TRIATHLON; Batterien für industrielle Anwendungen in elektrisch betriebenen Flurförderzeugen, Elektrohubwagen, Hubarbeitsbühnen und Reinigungsmaschinen. ... Triathlon Battery Solutions, Inc. USA wird auf der ProMAT 2023 ausstellen - Stand #S4573. mehr lesen. 19. Dezember 2022 Wir sind wieder dabei! LogiMAT 25. - 27.

TRIATHLON's forward-looking energy solutions enable, for example, longer truck operating times between charges, the elimination of battery changes and maintenance, and the possibility for flexible intermediate charging. As a result, significant productivity gains can be achieved. The modular design of TRIATHLON Li-ion battery systems

TRIATHLON; Lithium-Ion battery systems replace Lead-Acid batteries without any problems - and without interfering with new or existing industrial trucks thanks to matching tray ...

TRIATHLON; batteries of the TPzS, TPzB and TPzV series ensure a safe power supply in electric industrial trucks. We work permanently and consistently on new and innovative solutions for safe, cost-efficient and reliable electric battery-powered operation. For heavy-duty applications we recommend our TPzS more Power series.

We offer our clients modern, compact, and efficient charging technology for any kind of lead-acid or lithium-ion battery. Small size and full parameterizing enable chargers to meet customer needs at an excellent performance. We aim to be in the right place, offering the right charger for the right application and battery.
