

# Hexagon energy Norway

Where is hexagon headquartered?

We are headquartered in Norway with 23 international locations, including the world's most important clean energy markets in Europe, Asia and North America. Hexagon is organized into three business areas: Hexagon Agility, Hexagon Digital Wave and Hexagon Purus.

Who is hexagon energy?

Over the past 13 years, the principals of Hexagon Energy have developed and financed over 6,500 MW of energy, representing over \$1 billion USD in invested capital. We bring this experience and insight to every project. We pursue the best opportunities across all new energy technologies, building a diverse and balanced portfolio.

Who owns hexagon ragasco?

One agreement is to acquire 100 percent of Hexagon Ragasco and a second agreement is to sell 49 percent of Worthington's Sustainability Energy Solutions (SES) business segment to Hexagon Composites forming a joint venture with the company.

What are hexagon business areas?

Hexagon is organized into three business areas: Hexagon Agility, Hexagon Digital Wave and Hexagon Purus. Our business areas are global leaders in their segments, driving the energy transition with a range of alternative fuel solutions.

Why is hexagon energy planning early development projects?

Hexagon Energy is planning early development projects that capitalize on strong government incentives and unique geographic constraints. The world's oldest source of renewable energy, biomass power (or biopower) generation is expected to grow more than fivefold over the next 25 years.

What is hexagon wind energy?

With roots in the wind industry dating back to 2002, the Hexagon team has developed over 6,000 megawatts of wind energy. Hexagon is targeting emerging technologies, sites, and approaches that can yield higher production at lower cost.
