

# Hpe smart storage energy pack 1 firmware San Marino

Does the HPE smart storage hybrid capacitor support multiple devices?

The HPE Smart Storage Hybrid Capacitor is only supported on Gen10 and later servers. One energy pack option can support multiple devices. An energy pack option is required for 900 series controllers. Once installed, the status of the energy pack displays in HPE iLO.

Does Hewlett Packard Enterprise have a backup power source?

Hewlett Packard Enterprise offers two centralized backup power source options to back up write cache content on the controllers in case of an unplanned server power outage. The HPE Smart Storage Hybrid Capacitor is only supported on Gen10 and later servers. One energy pack option can support multiple devices.

What's the difference between energy pack and Smart Storage Battery?

NOTE: System ROM and firmware messages might display "energy pack" in place of "Smart Storage Battery." Energy pack refers to both HPE Smart Storage batteries and HPE Smart Storage Hybrid capacitors. Make sure that a supported Smart Array P-class Gen10 controller is installed. The installation is complete.

Does HPE iLO support multiple devices?

One energy pack option can support multiple devices. An energy pack option is required for 900 series controllers. Once installed, the status of the energy pack displays in HPE iLO. For more information, see the HPE iLO user guide on the Hewlett Packard Enterprise website.
