<div class="df_qntext">Will Dubai solar park add 2 GW of PV capacity?

The Dubai Electricity and Water Authority (DEWA) has launched a tender for the seventh phase of the Mohammed bin Rashid Al Maktoum Solar Park, which could add up to 2 GW of PV capacity and 1 GW of battery storage. DEWA has launched a tender for the construction of the seventh phase of the Mohammed bin Rashid Al Maktoum Solar Park.

<div class="df_qntext">Why is Dubai launching a solar park?

It was launched in 2012 by His Highness Sheikh Mohammed bin Rashid Al Maktoum, the Vice President and Prime Minister of the UAE and the Ruler of Dubai. The development of the solar park will further boost Dubai's status as a global leader in the clean and renewable energy sector.

<div class="df_qntext">What is Mohammed bin Rashid Al Maktoum solar park?

Mohammed bin Rashid Al Maktoum Solar Park is a solar park spread over a total area of 77 km² (30 sq mi) in Saih Al-Dahal, about 50 km (31 mi) south of the city of Dubai in the United Arab Emirates (UAE). It is one of the world's largest renewable projects based on an independent power producer (IPP) model.

<div class="df_qntext">How many GW will Dubai's solar power plant generate?

The plant was implemented by the Dubai Electricity and Water Authority (DEWA). The first phase of the project was commissioned on 22 October 2013. At the end of 2020 the solar PV complex reached a generating capacity of 1.013 GW with the aim to reach 5GW by 2030.

<div class="df_qntext">How big is Rashid Al Maktoum solar park?

By October 2022, the Rashid Al Maktoum Solar Park had 1.83 GW of operational PV capacity. This included the 13 MW first phase, 200 MW second stage, the 800 MW third phase. Parts of the fourth and fifth phases are still under development.

<div class="df_qntext">How many megawatts will Dubai park generate by 2030?

It is estimated that the park will be generating 5,000 megawatts of renewable energy by 2030. The plant was implemented by the Dubai Electricity and Water Authority (DEWA). The first phase of the project was commissioned on 22 October 2013.

Driving south from Dubai toward the Mohammed bin Rashid Al Maktoum Solar Park, a dazzling light sphere resembling an artificial sun comes into view from over 20 km away in the desert.
