

Israel vertical carousel storage system

Who makes a vertical storage carousel?

Our Vertical Storage Carousel manufacturers, Hanel Storage Systems and Vidor Storage Solutions, are the top names in the industry and their vertical carousels can be designed to meet the unique storage requirements of virtually any business.

How can a vertical carousel storage system improve picking productivity?

If you're looking for a way to optimize your parts storage, save space, and improve picking productivity, a vertical carousel storage system can help. The vertical carousel utilizes overhead vertical space to store more parts in a compact footprint, and its ergonomic design helps pickers work quickly and efficiently.

What is a vertical carousel?

The vertical carousel is an automated vertical storage system with rotating shelves. The shelves or carriers rotate like a Ferris wheel at the push of a button to bring stored goods directly to the operator at an ergonomically positioned access counter.

How does the vertical carousel picking system work?

The vertical carousel picking system integrates with user-friendly inventory management software for optimized inventory control. With inventory management software, you can track inventory levels and storage locations, view usage reports, implement access control and user authorizations, and optimize your use of storage space.

Why should you choose Hanel for your vertical carousel?
