For Madagascar, the third African country to join Scaling Solar, a new 30-40 megawatt solar facility will help ease daily interruptions of power service. This island nation suffers from frequent power outages, and under one-third of the population has access to electricity.

The project consists of an 8 M W solar PV plant that is scheduled to be operational in 2022 and a 12 MW wind farm that will be commissioned in 2023. Both facilities will be connected to an 8.25 MW ...
