

Jamaica explosion proof battery box

Can a battery explode in a storage box?

Explosion proof: The special material has a certain explosion-proof property, and the explosion of the battery in the storage box will not hurt the family. Explosion proof: The special material has a certain explosion-proof property, and the explosion of the battery in the storage box will not hurt the family.

What is a fireproof battery box?

Fireproof and explosion-proof materials will keep your batteries 100% safe. We designed this fireproof battery box to minimize the danger and loss caused by battery explosion. It will be an ideal great Christmas gift for your family or friends. For more type batteries: 13.4*9.5*3 inches size.

Why are batteries held in foam cutouts?

Batteries are securely held in well organized foam cutouts, this prevents accidental contact between batteries from causing a fire or explosion, and it also makes it easy to find the right battery!

Our ATEX compliant battery systems range from 4.5Ah up to 5000Ah and are intended for use in areas made potentially hazardous by the presence of flammable liquids, gases or vapours (Zone 1, Zone 2, Zone 21 or Zone 22). Our battery enclosures / cubicles provide a supply for equipment where conventional supply sources fail or are not available.
