Search no more! At RDX Power we take great pride in taking care of our clients because when you work with solar companies, it's not a one-and-done kind of relationship. It is a partnership that you need to have access to for the long term. Connecting your home with solar energy can be seen as a big investment.

Jamaica's solar potential. Jamaica's electricity sector is dominated by non-renewable generators that use petroleum products, primarily Bunker C fuel oil and automotive diesel which generated 93% of the annual output for 2014. There is a small contribution from a few small hydroelectric plants and a couple of wind farms, one of which, Wigton Wind Farm, [1] contributes a very ...

Off grid photovoltaic systems are completely independent of the grid. The energy produced by the solar panels are collected and stored in special batteries that are rechargeable. A device called a charge controller regulates the raw DC power to prevent overcharging and protect the batteries. Batteries store energy in the form of Direct Current, therefore another device called an inverter ...

He was professional and knowledgeable about the solar plan I needed. He has answered all my questions and concerns, in a timely manner. And I know he will be there, in the future, if I need assistance. Jacob is a wonderful asset to RDX Power. As to RDX's installation of the equipment I can attest that the crew doing the installation was great.
