

Kenya renewvia solar limited

Who is renewvia solar?

We design, install, own and operate commercial and community solar power systems across multiple continents, and provide a complete range of solar energy solutions including turnkey solar installation, integrated financing and solar consulting services. Renewvia launched in 2009 and developed our first rooftop array that same year.

Who is renewvia Energy Corporation?

Renewvia Energy Corporation is a top 500 Global Solar Developer headquartered in Atlanta, Ga. We design, install, own and operate commercial and community solar power systems across multiple continents, and provide a complete range of solar energy solutions including turnkey solar installation, integrated financing and solar consulting services.

Where is renewvia based?

With two subsidiaries in Kenya and Nigeria, Renewvia has a large and growing presence in key markets across Africa, where the company builds, installs and operates minigrids: standalone power system that operate autonomously from a country's main power supply.

What does renewvia do?

Renewvia partners with large and small businesses alike to develop solar, energy storage, and EV assets on any and all types of property in order to sell the electricity generated to the same client and/or creditworthy off takers. Renewvia Energy Corporation is a top 500 Global Solar Developer headquartered in Atlanta, Ga.

What is renewvia doing with a minigrid?

Renewvia has completed a handful of projects over the past few years with plans to continue to grow and establish a presence in this sector. Minigrids do not just bring reliable, clean electricity to communities for the first time, they transform lives.

October 24, 2018 Last month, we announced that two new solar microgrid facilities were successfully up and running on the Islands of Ndeda and Ringiti in Kenya's Lake Victoria region. Both were also outfitted with Renewvia Energy's innovative, new mobile payment platform, which uses M-Pesa and the Commercial Bank of Africa to facilitate the transactions.

Two subsidiaries, Renewvia Energy Kenya Limited & Renewvia Solar Nigeria Limited, were readily activated. Starting from 2015, Renewvia has expanded into newer markets and geographies. Our growth remained steadfast, and many successes have been registered, but the corporation anticipates delivering dependable, clean power at an escalated rate.
