

Kmd energy solutions Slovakia

How can KMD help you manage your energy consumption & data?

KMD provides end-to-end cloud-based solutions to help you manage your energy consumption and data. Our solutions include self-service options that are simple to use. A focused, digital approach to energy management aims to use energy as efficiently as possible and ensure correct billing.

What is KMD energy management suite?

KMD Energy Management Suite is operated by KMD who uses the latest technology with Microsoft Azure. The solution is guaranteed to operate in an EU country and complies with all safety regulations. This means that the solution is central and accessible via browser. No installation is required to the customer.

How many integrations does KMD energy management suite have?

KMD Energy Management Suite has more than 50 different integrations to ensure collection of meter data independently of the meter supplier and other systems used in the organization. These integrations include Datahub, Kamstrup, Danfoss, CB Svendsen and others.

Why should you choose KMD?

KMD's solutions help streamline processes and create automated flows. With clear dashboards and data collection, you have the right conditions to turn insights into action, so you can provide your customers with the best service. And with an off-the-shelf solution, you don't have to worry about updating your software.

Does KMD integrate with other supply companies?

These integrations include Datahub, Kamstrup, Danfoss, CB Svendsen and others. KMD collaborates with many other supply companies and can therefore collect data from those as well. Can we start small and then scale up as needed?
