

ChubbSafes Fire-resistant cabinets (3 foot plus) products are categorised under fire resistance time starting from 60 minutes up to maximum of 2 hours and by the different mediums they protect, i.e digital, film or paper records.

Armed fire valves (RIA) allow, when the use of water is not prohibited, a powerful and effective action during the first intervention, while waiting for the arrival of help. They must be installed in places sheltered from frost, and close to accesses. They are clearly marked. The possibilities of water supply, if necessary by having reservoirs, are obviously essential.

Having fire cabinets ensures businesses comply with fire safety regulations, avoiding potential legal consequences. 5. Versatility. Fire cabinets come in various sizes and designs, making them versatile for different types of workplaces. Fire cabinets can be wall-mounted, floor-standing, or even portable, depending on the needs of the workplace.
