

# Linyang energy and the prospects of solar container business

<div class="df\_qntext">What business segments does Linyang operate in?

Linyang mainly operates in three business segments, namely smart grids, renewable energy and energy storage. The energy storage segment focuses on solutions for renewable power generation, independent energy storage power stations, industrial and commercial energy storage systems, and user-side microgrid applications of solar-plus-storage.

<div class="df\_qntext">Where does Jiangsu Linyang energy plan to build energy storage facilities?

(Yicai) July 18 -- Jiangsu Linyang Energy is planning to build energy storage facilities overseas, with Southeast Asia, Europe and the Middle East identified as the Chinese smart energy company's three key regions for international growth. Of them, Europe is the priority market, the firm's vice chairman told Yicai in a recent interview.

<div class="df\_qntext">How many MWh does Linyang energy have?

Linyang Energy Signs Overseas Energy Storage Project Agreement

<div class="df\_qntext">Is Linyang expanding into overseas markets?

Since the second half of last year, Linyang has been fully focussed on expanding into overseas markets. 2025 is expected to be the first year that the company achieves large-scale international sales of its energy storage products, company management said at the 2024 earnings call.

<div class="df\_qntext">Where is Linyang energy storage located?

In the Middle East, Linyang has set up a joint venture energy storage factory with its strategic partner ECC. The facility includes the production of smart meters and energy storage systems. In Southeast Asia, Linyang has an energy storage operations center in Jakarta, Indonesia, with a full team already assembled, the company previously said.

<div class="df\_qntext">Does Linyang have a smart meter factory?

Linyang already operates a smart meter factory in Indonesia and in the future, depending on local policies, it may add energy storage production facilities on that site. In the Middle East, Linyang has set up a joint venture energy storage factory with its strategic partner ECC.
