

Mpp solar 5kw Turks and Caicos Islands

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCI are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

What solar products does Fortis TCI offer?

We specialize in the following solar products: solar hot water, solar pool heating, solar pool pumps and solar photovoltaic. Fortis TCI is the main power utility in the Turks and Caicos Islands. It is a privately owned company and services all of the inhabited islands within the Turks and Caicos Island chain.

What is MPI Hybrid solar inverter?

The MPI Hybrid Series solar inverter offers great versatility in both GRID-TIED and OFF-GRID applications. Available in 5KW, 5.5KW (single phase) and 10KW (three phase) output, the MPI hybrid series has extended support of PV input up to 14.85kw maximum (MPI 10k).

Do I need a parallel kit for MPI 5K & 10K?

Only on MPI 5K, and 10K, this feature allows users to set up parallel units of up to 6 units, greatly increasing the maximum power output to accommodate wider range of application. All accessories are included and there is no need for any parallel kit.
