

NRG energy Portugal

What percentage of Portugal's energy consumption comes from renewable sources?

In 2016, 28% of final energy consumption in Portugal came from renewable sources. Portugal aims to be climate neutral by 2050 and to cover 80% of its electricity consumption with renewables by 2030.

Are renewables the future of electricity in Portugal?

In the electricity sector, renewables hold a much larger share. Portugal's renewable power capacity has been growing steadily in the last years, surpassing 18 gigawatts in 2023. This represents a share of over 86 percent of the total installed capacity in the country. This growing trend is expected to accelerate in the upcoming years.

Why is Portugal so dependent on imported energy?

Portugal ranks as the 11th EU member state most dependent on imported energy sources, with a decreasing dependence since 2000, when 85% of its energy was imported. This is mainly due to the lack of fossil energy sources, which continues to impact the total consumption of primary energy significantly.

How much LNG does Portugal import?

According to the latest statistics from the U.S. Department of Energy, Portugal has received 23.32 million cubic feet from the U.S. between January and April 2023. The country currently ranks 16th worldwide (and 86th in Europe) with 1.9% of total imports of U.S. LNG.

Will offshore wind power reduce Portugal's energy dependence?

The Portuguese Minister of Environment and Climate Action Duarte Cordeiro claimed that developing hydrogen and offshore wind power will allow the country to reduce its energy dependence.

What is the largest hydroelectric power station in Portugal?

The largest hydroelectric power station is at the Alto Lindoso dam, with a capacity of 630 MW. Portugal has about 100 small hydro systems, with a capacity of 256 MW, which produce 815 GWh/year. At the end of 2018, wind power capacity in Continental Portugal was 5,368 MW.

Renewable power sources supplied 61% of Portugal's electricity in 2023, up from 49% a year earlier, hitting a new record thanks to periods of heavy rains, strong winds and good doses of sunshine...
