

Nayax energy Syria

What is Nayax energy?

Nayax Energy's unique offering, which includes global payment solutions for any local market, white label energy management, a driver app, hardware agnostic solutions, loyalty and marketing capabilities, and support of common industry protocols.

Why did Nayax change?

This change represents a strategic evolution that aligns with Nayax's commitment to its partners and customers to simplify payments and energy management, and to maximize loyalty for the electric energy industry.

How many EVS will Nayax energy have in 2030?

Nayax Energy is looking ahead to 2030, when, according to the International Energy Agency, 230 million EVs are expected to be on the road, and over 250 million charging stations will be needed to address this growth.

What is the difference between EV meter and Nayax?

Before this change, EV Meter mainly focused on energy and charging station management and hardware (AC Level 2 charging stations), while Nayax was mainly focused on card present payments for charging stations.

Why did Nayax change its name?

"We believe that this change will enable us to better focus on our customers' needs in terms of our product offering and support," says Omer Bubis, General Manager of Nayax Energy. "It's important to note that while our name is changing, our core values and dedication to excellence and the quality of our products and services remain unwavering."

This makes this year, 2024, an especially important year to invest in EV charging technology. Forecourts, hotels, parking lots, office buildings, and other businesses that decide to invest now will be ready for the constantly growing number of EVs on the road. When deciding on which kind of EV charging technology to invest in, it is important to consider EV ...
