Discover how mobile solar containers deliver efficient, off-grid power with real-world data, innovations, and case studies like the LZY-MS1 ...

The power station's generation capacity is 26.6 megawatts. Its output is sold directly to the government of Burkina Faso for integration into the national electricity grid, under a 25-year power purchase agreement. The solar park is operated and maintained by Zina Solaire, the special purpose vehicle company (SPV), created by the station developers, to design, fund, build, own, operate and maintain this power station, for the duration of the PPA. It is expected that the power station will provide electricity t...
