

In a bold announcement, Portugal recently surpassed its entire solar output from 2023 by September 2024, celebrating a record year for solar energy production. According to REN (Rede de Energia Nacional), the country generated more than 3.99 TWh of solar energy in just the first nine months, exceeding last year's total of 3.6 TWh.

A floating solar farm of 12,000 solar panels will be ready to produce power in July of this year in Portugal's Alqueva reservoir on the Guadiana River in Alentejo. This will be Europe's largest floating solar park on a reservoir in Europe, the size of four football pitches.

Thank you for asking how to write off your solar panels for your rental property. As you are probably already aware, the recent enactment of the Inflation Reduction Act of 2022 enhanced the availability of the solar credit for residential real property you live in, bumping the credit percentage back up to 30% for 2023. ...

We took our wonderful campervan (named Helen) to Portugal back in 2022 for an EPIC road trip around Portugal. And, in our opinion, the best way to road trip Portugal is by renting a campervan or motorhome!. Sure, you could hire a car in Portugal, but we found that having our own camper here offered us so much more flexibility in terms of where we stayed each night.
