

Power backup for home Saint Helena

What is a home backup battery?

A home backup battery provides a safety net when you need to protect your family against a power loss. It delivers clean power, unlike a home standby generator that relies on fossil fuels. With battery backup solutions, you get energy security and peace of mind.

What is a whole home power backup solution?

For more extended power outages (and greater energy security), the advanced EcoFlow Whole Home Power Backup Solution combines two EcoFlow DELTA Pro portable power stations with a double voltage hub. With a combined output and storage capacity of 7200W, you can fully power the average home for 1-2 days.

Do you need a backup power solution if the grid fails?

Your electricity needs don't just go away when the grid fails. The right backup power solution gives you peace of mind and energy security. EcoFlow has a wide range of options for portable power stations, home backup batteries, and solar generators. Chances are, we have the right solution for you. *Under 2000W output

The voltage used in Saint Helena, Ascension and Tristan da Cunha is 230V and the frequency is 50Hz. If this is the same in your own country, you don't need a voltage converter when travelling to Saint Helena, Ascension and Tristan da Cunha.

Saint Helena, a remote island located in the South Atlantic Ocean, has a small population of approximately 4,000 residents. The island's remoteness has historically posed significant challenges for telecommunications, resulting in a reliance on satellite communications. However, in February 2023, the island was connected to Equiano, a subsea cable linking South Africa ...
