On its path to the EU, North Macedonia has adopted its Energy Law in May 2018 (which harmonised the energy legislation of North Macedonia with the EU Third Energy Package). Most recently, in November 2022, the EU Regulation 1227/2011 ("REMIT Regulation") as well as EU Regulations 347/2013 and 2015/1222 have been introduced in the Macedonian legislation.

The North Macedonian Parliament adopted a new Energy Law in May 2018 ("Energy Law"), harmonizing the energy legislation of North Macedonia with the EU Third Energy Package. This Energy Law introduced premiums ("Premiums") to operate alongside the previously available preferential tariffs ("Feed-in Tariffs") as a support measure for electricity producers ...

In addition to its strong build quality, the Otterbox Fast Charger Power Bank has all the key features you need, such as fast charging with PD, both types of USB ports, and several options for ...

improve the poor labor market outcomes observed since independence. Despite recent progress, North Macedonia continues to show high levels of unemployment and low labor force participation, as well as sub-par indicators of employment quality. In 2019, barely half of people of working-age in North Macedonia were employed.
