Is SEG solar building a 5GW Topcon solar plant in Indonesia?

Image: SEG Solar. Solar manufacturer SEG Solar has started construction on a 5GW TOPCon vertically integrated--from ingots to modules--solar PV plant in Indonesia. Construction started less than six months after the company unveiled its plan to build the plant in May 2024.

Does SEG solar have a 5GW integrated PV industrial park?

Give your business an edge with our leading industry insights. SEG Solar, a US-based solar photovoltaic (PV) modules manufacturer, held a ground-breaking ceremony for its new 5GW integrated PV industrial park in Indonesia.

What does SEG Solar do?

SEG Solar co-founder and general counsel Michael Eden said: "As a crucial part of SEG's overall strategy, we are committed to developing the Indonesian facility into a highly efficient and competitive vertically integrated PV industrial park by optimising the upstream and downstream layout of the N-type industrial chain.

What will SEG Solar do in Indonesia?

A spokesperson at SEG Solar told PV Tech the primary focus would be on tunnel oxide passivated contact (TOPCon) technology for the plant in Indonesia, and it might consider heterojunction in the future. Once fully operational, the project's total capacity will be 5GW of annual nameplate production capacity from wafers to modules.

What is SEG Solar's Global Strategy?

Michael Eden, SEG Solar CO-founder and General Counsel, highlighted: "As a crucial part of SEG's global strategy, we are committed to building the Indonesian facility into a highly efficient and competitive vertically integrated photovoltaic industrial park, optimizing the upstream and downstream layout of the N-type industry chain.

What is SEG doing in Indonesia?

This initiative marks SEG's commitment to global expansion and investment in Indonesia, aiming to establish a 5GW annual production capacity for silicon ingots, wafers, cells, and modules, making it the largest vertically integrated photovoltaic industrial park in Indonesia.

Founded in 2016 and headquartered in Houston, Texas, SEG Solar is an internationally recognized Tier 1 US manufacturer with a fully integrated supply chain for the production of high-quality solar modules.
