Modular Routers 7.5.3-86 DISTRIBUTOR: does a SINGLE Distributor Module have the ability to target an inventory more than once? In other words... could it distribute to inventory A multiple times and inventory B once... or something like that?

Welcome to Modular Routers! This is a highly flexible mod for moving items around the world in various ways. With a single block - the Item Router - and a selection of plug-in module items, you can: pull items from an inventory (including modded inventories like Storage Drawers) send them to other inventories near & far; place items as blocks ...

First, you need a router with a fluid module in it, as well as needing to have a bucket within those routers to connect them to pipes. If you are doing both pulling and extracting on the same time, you need to first have the module in hand and set one to transfer into the router and the other to transfer out of the router.

Modular Router . So im setting up my wasted radioactive bee farm and had a quick question. Is there a module that can pull from more than one block in the way that round Robbin sends to more than one block? just seeing if there is a way to minimize the amount of modules I use.

Clear Energy Distributor Module (or any of them) #188. jdbhkf opened this issue Apr 16, 2023 · 1 comment Comments. Copy link jdbhkf commented Apr 16, 2023. Describe the feature. It would be nice to have a key or something to be done that would clear all settings on a module. Wrench or really anything.

(All modular routers share the same ID so other players doing this would end up having quite literally the same ingredients as you and could pop off the finished crystal first, definitely a bad idea unless you are on a very teamwork oriented server).

As of Modular Routers 12.0.2, the mod is built with Neoforge. While Modular Routers is likely to remain compatible with Forge for now, future compatibility is not guaranteed in any way; Player Module and Sender Module Mk3 now respect a dimension blacklist, dimensions which those modules cannot send items to or from

As the title suggests, I need help with what to do with augments for modular routers. I'm specifically talking about "Range Up Augment", but I can't seem to figure out how to add this to my item router. I see a spot for modules and one for upgrades, but they don't seem to want to go there, any suggestions would be nice <3 ...

This Router has to output to 8 other routers, which each places one ore. The setup now is one Modular Router with four distributor modules (DM) that get items from chests, and one that distributes these items randomly to one of 8 other modular routers. The distributor modules that get items from chests, are set on nearest first.
