

Seychelles vines battery

What is vines battery manufacturing factory?

The VinES Battery Manufacturing Factory will provide Lithium batteries for VinFast's electric cars and buses. In Phase One, the factory will scale 8 hectares, funded by a total investment of more than VND 4,000 billion.

Where is vines battery factory located in Vietnam?

The People's Committee of Ha Tinh Province and Vingroup officially began construction of the VinES Battery Manufacturing Factory in the Vung Ang Economic Zone (Ha Tinh) in Vietnam. The facility is backed by VND 4,000 billion (nearly 173.7 million USD) in investments and is being developed on 8 hectares in its initial phase.

Why did VinFast establish a battery manufacturing factory?

The establishment of this factory represents an important milestone in VinFast's strategy of self-production and supply of batteries with global standards for its electric vehicles. The VinES Battery Manufacturing Factory will provide Lithium batteries for VinFast's electric cars and buses.

Why did Vingroup build a battery manufacturing factory?

The construction of the VinES Battery Manufacturing Factory marks a significant step in implementing Vingroup's "three-pillars" battery strategy, including procuring batteries from the world's top manufacturers, collaborating with partners to produce the world's best batteries and conducting in-house research and development for battery production.

Why did VinFast build a battery factory in Vung Ang?

Speaking at the groundbreaking ceremony, Mr. Nguyen Viet Quang, Vice President & CEO of Vingroup noted: "The research and construction of this battery manufacturing factory in the Vung Ang Economic Zone reflect our efforts to establish a clean energy ecosystem that contributes to the localization of VinFast's supply."

What is Phase 2 of a battery factory in Vietnam?

Phase Two of the factory will expand production to include battery cells manufacturing and upgrade capacity to 1 million battery packs per year. This very first and most advanced battery plant in Vietnam will be equipped with European and American-standard technologies that boast an astounding workflow automation rate of 80%.
