Is smartflower still available in Europe?

Since the Austrian company SmartFlower Energy went bankrupt, it is no longer purchasable in Europe. This said, an equivalent model simply named "SmartFlower" is still commercialised in the US. This model is very similar to the POP version, aside it being slightly more powerful (205 kWc) and available in fewer colours (white, grey, green and blue).

How much does a smartflower Solar System cost?

If we consider the price per watt for new solar systems is generally in the \$3-\$4 range in 2023 according to national estimates, then a Smartflower system costs between three and four times as much as conventional rooftop solar. And that's with the 40% bump in energy production from Smartflower's dual-axis tracking already factored in.

I find Vatican City to be fascinating because it's such an unusual country, as well as being one of the few remaining city-states in the world. It's the last remnant of the old Papal States, established by the Lateran Treaties between Mussolini and Pope Pius XI, and has been upheld by Italy even as it changed from a kingdom with a fascist leadership to a democratic parliamentary republic.
