

With its flexible modularity providing seamless and risk-free power scalability up to 20 kW, the MODULYS XS range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed power can be increased up to 20 kW by adding hot-swap plug-in power modules for incremental steps of either 2.5 kW or 5 kW.

MODULYS Scalable and flexible modular solution from 1.5 to 24 kVA The solution for > e.business > Server farms > Telecommunications > Medical > Computer networks Technology > VFI "online double conversion" GAMME 237 MODULYS Single-phase UPS from 1.5 to 24 kVA Technical data MODULYS Mod-Power Sn [VA] 1500 3000 4500 6000 Pn [W] 1050 2100 3150 ...

The MODULYS XL is a modular UPS based on 200 kW power modules. The power of a single UPS unit can be increased up to 1200 kW and the system can include up to 4 units in parallel. The innovative MODULYS XL concept allows ...

10 MODULYS XM - SOCOMEC MODULYS XM Power 250 +50 kVA/kW 600 + 50 kVA/kW Module power 50 kW (up to 40°C ambient temperature) Number of power modules 1 to 6 2 to 13 Input / output 3/3 INPUT Voltage 400 V 3ph+N (340 V to 480 V) Frequency 40/70 Hz Power factor / THDI > 0.99 / < 1.5% OUTPUT Power factor 1 (according to IEC/EN 62040-3)

SOCOMECEC - MODULYS RM GP 7 Technical specifications MODULYS RM GP Model 9U 15U Number of power modules 1 to 2 x 25 kW 1 to 4 x 25 kW Configuration N, N+1 redundant Power (Sn) 25 to 50 kVA 25 to 75 kVA Power (Pn) 25 to 50 kW 25 to 75 kW Input / output 3 / 3 input Voltage 400 V 3ph (340 V to 480 V) Frequency 50 / 60 Hz < 10 % Power factor / THDI ...

Consequently, without any redundancy, the MODULYS XS guarantees a high availability; and a redundant power supply for critical applications. Thanks to its modularity, which allows making the system up to 20 kW without risks or interruptions, the MODULYS XS range is the ideal solution when the power requirements increase and when extensions are required ...

MODULYS XM. Äerst zuverlässige und flexible USV mit langer Lebensdauer - bis zu 600 + 50 kVA/kW. Modulare USV für mittleren Leistungsbereich: ultrazuverlässig, flexibel und langlebig ... - IoT-Gateway für die Cloud-Dienste und die mobile App SoLive UPS von Socomec. - Externer Touchscreen. Ressourcen & Dokumentationen ALLE RESSOURCEN

With its flexible modularity providing seamless and risk-free power scalability up to 200 kW, the MODULYS GP range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed

Socomec modulys Wallis and Futuna

power can be increased up to 200 kW by adding hot-swap plug-in power modules for incremental steps of 25 kW.

MODULYS XL is a modular UPS system designed to provide high performance and power scalability. Power scalability can be by adding power blocks of 200 kW (Power module) to ...

With its flexible modularity providing seamless and risk-free power scalability up to 200 kW, the MODULYS GP range is the ideal solution for unscheduled site upgrades or incremental power ...

Mit ihrer flexiblen Modularität bietet MODULYS GP unterbrechungs- und risikofreie Erweiterbarkeit der Leistung bis zu 200 kW und ist damit die ideale Lösung für spontane Leistungsaktualisierungen oder planmäßige schrittweise ...

Green Power 2.0 MODULYS GP efficiency & performance are tested and verified by TÜV SÜD Green Power 2.0 MODULYS GP power module MTBF is calculated and verified higher than 1,000,000 hours by SERMA TECHNOLOGIES (IEC 62380) MODULYS GP has been tested by CESI in compliance with the standard test procedure for the seismic qualification

o MODULYS adapts easily to changes and to the growth of your system. Power modules of 1.5, 3, 4.5 and 6 kVA, in tower, rack and system versions are easily combined to ensure the ideal ...

The MODULYS XL is a modular UPS based on 200 kW power modules. The power of a single UPS unit can be increased up to 1200 kW and the system can include up to 4 units in parallel. The innovative MODULYS XL concept allows for the constant protection of the load in online mode, whether to respond to load growth or to manage all aspects of the system's lifecycle, in ...

Based on the latest technology, the Socomec Li-Ion battery UPS enables a faster recharge than lead-acid systems, maximising the system's power availability. Available for the MODULYS ...

Designed with no single point of failure, the MODULYS XS offers high availability and redundant power supply to very critical applications. With its flexible modularity providing seamless and ...

MODULYS XM. Ultra-reliable and flexible UPS - built to last - 50kW to 2MW. Medium power modular UPS: ultra-reliable and flexible - built to last. ... Discover the all-in-one package to access all Socomec UPS digital services and digitalise your day-to-day operations. Check out the connection kit. Resources & Documentation

Socomec's modular and scalable UPS solutions are the most innovative in terms of concept and functionality. The extreme flexibility means that capacity can adapt to load evolutions, ...

With its flexible modularity providing seamless and risk-free power scalability up to 200 kW, the MODULYS

GP range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed power can be ...

Modulys XM is a modular, scalable and redundant UPS system based on plug-in and hot-swap power modules. The modularity enables power scalability by simply plugging one or more additional modules into the existing system (up to 13 modules per system).

Function. MODULYS RM GP is a 3-phase modular UPS system designed for 19" rack integration. Easy to integrate and install whilst simple to manage and maintain, it provides maximum availability and power protection in a compact ...

Mit ihrer flexiblen Modularität bietet MODULYS GP unterbrechungs- und risikofreie Erweiterbarkeit der Leistung bis zu 200 kW und ist damit die ideale Lösung für spontane ...

MODULYS GP UL. Unique, fully modular and redundant solution - 3ph/3ph UPS from 25 to 100+25 kVA/kW. Guaranteed continuity and ease of service with fully hot swappable modules, this solution ensures no end-of-life criticality, due to our Forever young concept.

Function. MODULYS RM GP is a 3-phase modular UPS system designed for 19" rack integration. Easy to integrate and install whilst simple to manage and maintain, it provides maximum availability and power protection in a compact design leaving free space for ...

Criado sem ponto crítico de falha, o MODULYS GP proporciona todas as vantagens da tecnologia Green Power 2.0. ... - Gateway IoT para serviços na nuvem da Socomec e aplicação para dispositivos móveis SoLive UPS. - Painel com controle remoto. Recursos e Documentação Todos os recursos

MODULYS XL is a modular UPS system designed to provide high performance and power scalability. Power scalability can be by adding power blocks of 200 kW (Power module) to extend the system up to 1200 kW or less, ... MODULYS XL is a modular system including an individual Socomec switching system for each power block enabling easy and safe ...

Les systèmes MODULYS XL sont des ASI modulaires basés sur des briques de puissance de 200 kW. Il est possible d'augmenter la puissance d'une unité jusqu'à 1200 kW et mettre en parallèle jusqu'à 4 unités en parallèle. Le concept innovant MODULYS XL assure la protection des utilisations en mode on-line.

MODULYS GP. Einzigartige, vollständig modulare und redundante Lösung - von 25 bis 200 kVA/kW. ... - IoT- Gateway für Socomec-Cloud- Serviceleistungen und mobile App SoLive UPS. - Externer Touchscreen. Ressourcen & Dokumentation Alle Ressourcen PEP Die Ressourcenbibliothek enthält alles, was Sie benötigen, um die beste ...

Socomec Virtual JNC software for Nutanix systems, along with the Net Vision network interface, guarantees a complete system shutdown in case of power supply outage, avoiding loss of data and preventing problems in the recovery phase. ... MODULYS (all range) MASTERYYS (all range) DELPHYS (all range) SOCOMEC S.A.S. 1, rue de Westhouse - BP 60010 ...

A propos de SOCOMEC. Le groupe SOCOMEC 100 ans d'énergie partagée Actualités Nos expertises Power Conversion ... la gamme MODULYS GP est la solution idéale lorsque les besoins en puissance évoluent et lors des extensions imprévues des sites. La puissance installée peut atteindre 200 kW en ajoutant à chaud des modules de puissance de 25 kW.

MODULYS XM. ASI flexible et ultra-fiable - conçue pour durer - jusqu'à 600 + 50 kVA/kW. ASI modulaire de moyenne puissance : flexible et ultra-fiable - conçue pour durer ... Découvrez MODULYS XM : le nouvel onduleur flexible et ultra fiable de Socomec - conçu pour durer ! Vous n'avez pas encore autorisé à utiliser les cookies ...
