

Solar container investment tax credit policy

<div class="df_qntext">Does your company qualify for a solar investment tax credit?

A major change is coming for commercial solar projects -- and it could determine whether your company qualifies for the federal 30% Investment Tax Credit (ITC) for solar or loses it entirely. Starting January 1, 2026, new Foreign Entity of Concern (FEOC) rules take effect.

<div class="df_qntext">What is the federal solar investment tax credit (ITC)?

The federal solar Investment Tax Credit (ITC) remains one of the most valuable financial incentives available for commercial solar installations in 2025. However, recent legislative changes and evolving qualification requirements mean that business owners must understand the current landscape to maximize their tax benefits.

<div class="df_qntext">Does a solar project qualify for a 30 percent tax credit?

Yes-- if it is placed in service by December 31,2027,your project will still qualify for the 30% commercial solar tax credit,even if construction hasn't started by July 4,2026. However,to protect against delays,commercial solar companies are recommending safe harbor strategies to lock in eligibility well in advance.

<div class="df_qntext">Can a business claim a 30% tax credit on solar?

For years,eligible businesses have been able to claim a 30% federal tax credit on qualified solar investments--including both commercial rooftop solar and ground-mounted systems--dramatically reducing upfront costs and improving project ROI.

<div class="df_qntext">Do financed solar systems qualify for ITC?

Yes,financed solar systems qualify for the ITC as long as you own the system. Solar loans allow you to claim the full credit in the year of installation,which you can then use to pay down the loan principal or apply to other tax obligations. What if my tax liability is less than my solar tax credit amount?

<div class="df_qntext">Can I use the ITC for my commercial solar project?

This comprehensive guide breaks down everything you need to know about leveraging the ITC for your commercial solar project. As of 2025,the federal ITC provides a 30%tax credit for qualified commercial solar installations. This rate is scheduled to remain at 30% through 2032,after which it will step down to 26% in 2033 and 22% in 2034.
