

# Solar in price Burkina Faso

Does Burkina Faso have a solar power plant?

In 2017, Burkina Faso inaugurated the Zagtouli solar power plant with support from the European Union and the French Development Agency (AFD). Issues include utility creditworthiness, and limited experience addressing IPPs and off-grid populations.

How much does electricity cost in Burkina Faso?

Burkina Faso currently has some of the most expensive electricity in the region, with cost of production at \$0.22-0.25 USD/kWh. The Government of Burkina Faso (GOBF) has set forth a bold national plan and has taken steps to introduce legislation to encourage private-sector investment and to liberalize electricity generation and distribution.

Does Burkina Faso have a country Factsheet?

Specifically for Burkina Faso, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.

How long does a power outage last in Burkina Faso?

The average power outage time was 233 hours in 2018, compared with 172 hours in 2017. In addition, the cost of energy remains high for households and businesses, at XOF 75 per kWh of high-voltage electricity in 2019. No on-grid IPPs operating in Burkina Faso

How has Burkina Faso changed over the years?

Burkina Faso has made remarkable progress in recent years, with an increase in installed capacity from 324.6 megawatts (MW) in 2017 to 410 megawatts in 2019. The share of renewable energy also surged from 9.4% in 2015 to 18.36% in 2019.

The findings of this study indicate that a significant portion of Burkina Faso's land area is suitable for solar PV and wind development. It suggests a maximum development potential of approximately 95.9 and 1.96 gigawatts (GW) for solar PV and wind projects, respectively.

In a significant step towards enhancing electricity supply and sustainable development, Burkina Faso signs an agreement for a 50 MWp solar power plant in Komsilga. The initiative, led by the Minister of Energy and Energie Plus, aims to fortify renewable energy contributions, fostering economic growth and improved access to electricity.

In a significant step towards enhancing electricity supply and sustainable development, Burkina Faso signs an agreement for a 50 MWp solar power plant in Komsilga. The initiative, led by the Minister of Energy and ...
