

Solar panel 1kw price Spain

How much does it cost to install solar panels in Spain?

The cost of installing solar panels varies based on your energy needs and location in Spain. On average, it costs between EUR6,500 and EUR10,000 (excluding batteries). SolarMente offers an all-in-one solution combining solar panels, energy storage, and smart power management, you can enjoy self-consumption and maximise your energy savings.

How many solar panels are installed in Spain?

The majority of solar energy generation in Spain comes from large installations - during a period of sunshine in April 2023 these accounted for 52.1% of the entire national mix. But home solar energy installations have also sky-rocketed in popularity. By January 2023 more than 200,000 homes have a solar panel installation in Spain.

How much does a solar self-consumption photovoltaic installation cost in Spain?

The price of a solar self-consumption photovoltaic installation for a single-family home is around EUR1,500 for each kilowatt generated (taxes not included). If we take into account that a typical household consumes around 4.4 kW, the initial cost of a project of these characteristics in Spain would be around EUR6,500.

Is solar energy a good investment in Spain?

As you can see, solar energy has indisputable potential in Spain. Installing solar panels in Spain means significant financial savings from day one, making you the owner of your energy. Similarly, the use of renewable sources such as solar energy leads us to an energy model based on sustainability.

How much does a solar panel cost?

As for the type of solar panel, these are mainly self-consumption or storage panels. With the former, all the energy produced is spent in the house and the surplus is injected into the grid, with prices ranging between 2,000 and 3,000 euros per kW installed, according to Alicante-based solar energy provider Solarmassel.

What types of solar batteries are used in solar panel installations in Spain?

Below find out about the 5 main types of solar battery used in solar panel installations in Spain. For home solar panel installations in Spain, lithium-ion and lead-acid are the most common solar batteries. The right choice for you depends on a number of factors. Let's take a look at some of the terminology seen above and other considerations.
